Subject: RE: Former Larson Titan S-2 FUD Site - Address

12/06/01 01:47 PM

Yes, these are always fun to figure out. The owner specifically gave me this address, but I would guess he means SW. Therefore I would go with Road 11 SE & Road U SE for being close? The lat. is 46 degrees, 54.93' North and the longitude is 119 degrees, 03.17' East.

Subject: Former Larson Titan S-2 FUD Site - Address

Hi, Guy,

Could you help us out on the address for the Former Larson Titan S-2 FUD site? The address in your Discovery form is 11744 Road "U" SW, and the direction to the site says that the site is 6 Kilometers south of Warden.

I checked on the address of the site location with two on-line map services, and came up with zero results. I could not find a Road U SW, only a Road U SE. Also, I could not find the address block of 11744 on Road U SE. I checked for cross roads. There is a cross street - West 11th Street, and the intersection with Road U SE is 1 Kilometer south of downtown Warden. There also is a cross road - Road 11 SE, and that intersection with Road U SE is about 6 Kilometers south of downtown Warden.

So, it would seem that the address should be Road 11 SE & Road U SE?

Also, could you find out the lat/long for the site? However, if not, and we get the appropriate address, then I can try to for an estimated lat/long.

Hope to hear from you shortly.

Thanks much!

Monica.
